## MOBILE REPAIR SERVICE

For your convenience most repair jobs can be attended to at your premises. With five vehicles servicing the metropolitan area we can save you costly down time without compromising the repair quality. Advanced booking is essential.

## REPAIRS

Bee Jays repair Side Curtains, Roll Tarps, Wind Out Tarp Systems, Canopies, Canvas, PVC, and Poly Tarps. With a large **2000m<sup>2</sup>** workshop located in the heart of the Welshpool/Kewdale industrial zone, we are equipped for any size job.

## SPARES

Not only do Bee Jays manufacture and repair, we also supply a vast array of spare parts for your convenience. These parts include;

- **Side Curtain buckles** and **straps** with various **hooks**.
- All types of side curtain **Top Rollers** including **single plate, double bogey plate** or **rollers** to suit **wasted rings**.
- **Ratchet Tensioners**.
- **Screw Box Covers** and **Webbing**.
- **Pelmet cover**.
- **Poles**.
- **Track** in 7 metre lengths.
- **Grab Handles** for side curtains.
- **Wonder slide**- a silicon based lubricant for **Rollers** and **Track**.
- **Roll Tarp handles, track, poles, uni-joints, yokes** and **splines**.
- **Ratchets** and **straps**.
- **Clip-on winches**.
- Premium quality **Ropes** in a range of lengths.

## HIRE TARPS

Tarps are available in various sizes for either **short** or **long term** requirements. If you need to cover any **general item** that requires protection from **Australia's harsh elements**, our covers can be utilised for most applications. We specialise in **canvas truck tarps** as well as **PVC tarps** for **general industry** and **roof covers**.

## SIDE CURTAINS

Using the highest quality PVC Fabric available, Bee Jays can supply, manufacture and install your new Side Curtains. Whether it is a small truck or a large drop deck trailer we can fabricate using our unique measuring system to suit any size Curtain Sider.

They are available in a range of colours and we can help arrange **Graphics** or **Digital Printing** and even **Painting** to promote your corporate brand.

**Load Restraining Curtains**-Using specially manufactured inelastic straps, these certified restraints make the curtains light and easy to handle ensuring you save time and money.

**Insulated Curtains** for refrigerated transportation. Insulation material consists of a layer of air cells laminated to a layer of aluminium foil. These two materials provide both heat reflective and insulation properties.

**Sign covers** and **Sign pockets** for **Dangerous Goods** can be made to suit. **Stencilling** is another service provided that identifies your property helping to prevent costly loss and theft.

## BULK HEAD PARTITIONS

Movable partitions for separating different load areas. Used primarily for refrigeration purposes.

## CONTAINER TARPES

Bee Jays measure, manufacture and install **Rip stop PVC tarpes** to fit either a **40' foot** or **20' foot** container. **Cable** to suit is also available.

## ROLL TARPES

Manufactured and installed for any size body, we have a **Side to Side** system to handle your requirements. All hardware including poles, handles, tarpoons, uni-joints, yokes, splines and front and rear flaps can be supplied and fitted if required.

## TRUCK TARPES

Bee Jays are the truck tarp specialists and each is customised, meaning you choose with our expert advice on an array of options. Using various commercial grade materials which all have their own distinct properties, we can advise which advantages are applicable to your usage.

## GENERAL USE TARPES

**New** or **second hand** tarpaulins for just about any application are available. We specialise in **General Industrial, Rural** and **Roofing tarpes**.

## SAND TARPES

Custom made from **Commercial grade Shade cloth** or **industrial mesh**. They can be designed to accommodate both your hoist and rear hinges if required.

## WIND OUT SYSTEMS

Front to rear wind out tarpes for both **End** and **Side tippers** are catered for in either **manual** or **automated systems**. Supply and fitting of hardware can be arranged. Available in a range of colours we used only the highest quality PVC fabric on the market which ensures reliability and durability.
